

Advanced Consulting. Expert Solutions

myaces@allacestech.com

Anthony G. Richardson-Principal Consultant/President

(334) 409-1411

## MISSION

IT consulting firm that assists U.S. Government and Commercial customers with installing and configuring necessary IT solutions - specializing in Splunk, UNIX Systems Administration, Cybersecurity, and host of other areas of IT.

## VISION

ACES Tech was founded with the sole purpose to help companies achieve their goals with the help of Information and Technology and to eliminate all the obstacles in their way.

## COMPANY PROFILE

We provide IT solutions to companies and government departments of all shapes and sizes. We provide Cybersecurity services to keep our clients safe from internal and external attacks. We record threats, analyze them and then neutralize them. We install and administer the operating systems for our clients. We also create customized packages for our clients and resolve the issue according to their needs. Our services page describes in detail what ACES Tech has to offer.
